

Military and Financial Supercycles Converging On The World Stage

by Pastor Norm Franz

In the July/August 2017 edition of *The Elijah Report (TER)*, we put forth a *Special War Alert* surmising that there are three major war cycles scheduled to converge into a period of unprecedented global conflict between now and 2024. This is important to understand in light of the end time wars Yeshua and the prophets spoke about in Bible prophecy.

MILITARY SUPERCYCLES

That report outlined how 12 different conflicts, spread throughout six theaters of war, were currently manifesting throughout the nations. It also identified three major biblical wars scheduled for the last days just ahead of Messiah's return:

1. The Arab conspiracy to destroy Israel in the 1948, '67, and '73 Arab wars against Israel ([Ps. 83](#)). Today, the stage is being set for another round of conflict over who the Land of Israel and the city of Jerusalem belong to.
2. The ongoing war in Iraq that began in 1991 and fired back up again in 2003 continues today as the war against ISIS, and will culminate in a final war with Israel ([Jer. 50 and 51](#)).

Prepare For War! An End Time War Alert

Ever since the LORD (יהוה) destroyed Satan's first attempt at creating a one world order under Nimrod at the Tower of Babel (Gen. 11), the devil has been working to reestablish a Nimrod style world order under the political and financial elite of the earth ([Ps. 2](#)). Consequently, the world has been transitioning from one world order (system) to another down to this very day.

Satan's tool of choice for moving this transition forward is the 'Hegelian Dialectic' which theorizes that:

Thesis + Antithesis = Synthesis.

In other words, *Crisis* begets *Solutions* which begets *Change* towards a *New Order* of things.

The concept of this dialectic is based on the unity of opposites that come together in agreement after crises irrevocably damages the status quo. It applies the ancient Greek philosophy that everything is in a state of constant change which produces an endless cycle of progressive transformation from one order to the next.

Unfortunately, the two major *theses* (crises) the devil uses to bring about this change are financial crisis and war.

3. The Russian/Arab confederacy that attacks Israel as foretold by the Prophet Ezekiel ([Ez. 38 and 39](#)).

We also explained how the current ethnic/race wars, political unrest, and civil uprisings will spread throughout the nations (including America) creating a worldwide Bolshevik style revolution against establishment political systems. This destructive element of societal breakdown has been increasing exponentially ever since the “Arab Spring” started in 2011. This internal civil conflict will produce mass confusion when major wars break out between the nations.

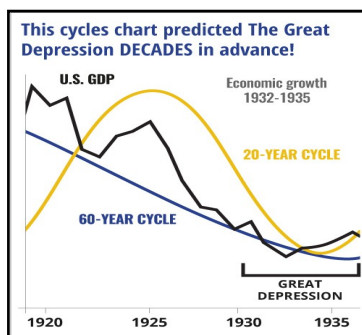

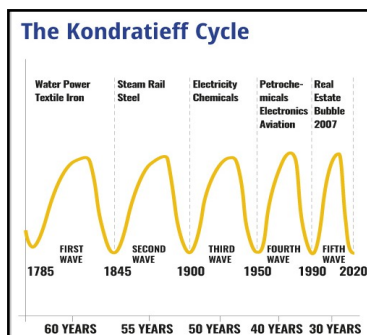

In the globalist scheme for world domination, internal and external war is combined with *Global Financial Crisis* to overthrow society and force the nations into forming a New World Order (NWO).

FINANCIAL SUPERCYCLE

There also are four crushing economic cycles that will converge between now and 2024 to form a destructive Financial Supercycle that collapses the global economy.

1. **The 50-60 year Kondratieff Wave** (a.k.a., *K-waves, long waves, long economic cycle, great surges, and supercycle*) is a well known and reliable economic cycle. Currently, it is projecting higher interest rates, a weaker global economy, rising unemployment, and large defaults on public and private debt.
2. **The 20 and 60 Year Economic Cycles** both predicted the Great Depression of the 1930's that collapsed the world financial system and thrust the nations into World War II. Both are currently projecting major economic turmoil that ultimately leads to systemic financial upheaval.
3. **The 3-4 year Kitchin Cycle** (discovered by Joseph Kitchin) is warning of slowing consumer demand which leads to oversupply, slower production, increased unemployment, and recession.

These three business cycles are largely driven by 1) consumer confidence and 2) the consumer's ability or inability to borrow and spend money into the “Main Street” economy. Unfortunately, that ability is intimately connected to “Wall Street's” access to capital which is largely driven by trader's ability to borrow money to buy investments on margin. This allows traders to drive investment markets artificially high which creates investment bubbles that always collapse. Consequently, debt's connection to both “Main Street” and “Wall Street” creates a Grand Supercycle that leads to a system-wide collapse, of which many economists measure by the Elliott Wave principle.

“Preserve me from violent men who devise evil things in their hearts; they continually stir up wars.”
– Ps. 140:1-2

4. **The 70-95 Year Elliott Wave Grand Supercycle**, developed by Ralph N. Elliott (1871-1948), forecasts market trends by identifying extremes in investor psychology, highs and lows in prices, and other collective economic factors. The Supercycle aspect evolves through eight expansion and contraction phases that progressively increase in intensity, like birth pains, until both the financial and economic systems collapse into depression at the end of the eighth and final phase.

Prophetic Note: *I believe Yeshua (Jesus) and the prophets foresaw these Financial and Military Supercycles increase in frequency and intensity like the “birth pains of a woman” and pointed to them as being major signs for recognizing the season of His return (Matt. 24:6).*

Elliott determined that the first Grand Supercycle started in 1857 and ended 72 years later with the stock market collapse of 1929. At that point, Elliott’s eight phased Supercycle started over again with only minor adjustments for globalization. Many Elliot Wave economists feel those adjustments have extended Elliot’s original 72 year Supercycle Wave out to as much as 95 years, or anywhere between 2001 and 2024.

What Has Been Shall Be Again

A recent poll showed that 72% of Americans believe the Trump Administration is turning the economy around and restoring the “*American Dream*.” That is because, after his election, employment went up, consumer confidence went up, profits went up, the stock market skyrocketed, and so on. This all appears to be good on the surface, except for the fact that the last time all these positive economic signs came together so quickly after a new president was inaugurated was during the Hoover administration.

Herbert Hoover was a very pro-economic growth president, who introduced highly progressive business themes into the business community. He implemented operational efficiency in both government and trade relations. His focus on balanced international trade produced the Smoot–Hawley Trade Tariff Bill that limited trade coming into U.S. markets. Hoover was elected president on November 11, 1928 and inaugurated on March 4, 1929, during which time the DJIA rose 12.5% (a mark that was unprecedented until Donald Trump was elected). In other words, Trump, like Hoover, is “*Making America Great Again*.”

This all sounds good except that, on October 29, 1929 (just a little under 8 months after Hoover was elected), U.S. stock markets collapsed on what is known as “Black Tuesday”. That event led the world into the Great Depression of the 1930s, followed by World War II in 1939. That global financial crisis and war transitioned the nations into a new era under the United Nations (U.N.) System in 1945-46.

Era of the United Nations System

The U.N. began by establishing an international, debt-based financial system under the auspices of the Bretton Woods Monetary Agreement. This system continued to allow the creation of debt-based money to drive the global economy and investment markets. This unholy process has led the world through numerous economic booms and busts (expansions and contractions) down to this very day. Unfortunately, each economic recovery was financed with more debt-based money through which the

been, and that
which will be

passed by [so
that history
repeats itself].”
– Eccles. 3:15 ^{AMP}**

(Military and Financial Supercycles, continued from page 3)

nations have amassed a \$1.5 quadrillion global debt bubble.

Consequently, many Elliott Wave theorists believe the recession of 2001 and the 2007-08 financial crisis were both preludes to the final phase of Elliott's current Grand Supercycle. In other words, 89 years after Elliot's last GS collapsed the world system, we are quickly approaching the culmination of the current GS when all the economic and financial cycles are scheduled to hit the global economy and world financial system between now and 2024.

And when you mix in the Military Supercycle, you get the collapse of our current world system which will force the nations into a New World Order.

The Great End Time Shaking

When these Financial and Military Supercycles hit full force, it is going to be the most painful thing the nations have ever experienced, even surpassing the Great Depression and WWII (1929-45). But remember that in the midst of revealing these end time calamities, Yeshua also encouraged us saying, *"See that you are not frightened, for those things must take place, but that is not yet the end"* (Matt. 24:6-8).

I believe Yeshua is telling us that this next series of end time events is not the Great Tribulation, but simply part of the Great Shaking when He overthrows kings and their kingdoms that leads to the coming of antichrist and the Great Tribulation ([Hag. 2:21-22](#); [Matt. 24:21](#)). His purpose is not to alarm us but to alert us, so we do not panic and respond out of fear during this time of testing ([Luke 21:26](#); [Jer. 17:10](#)).

Simply put, He does not want us to be scared but to be prepared in spirit, soul and body, so that we *"will not be shaken"* when that time comes ([Heb. 12:26-28](#)). ☆

Updated from article published in the First Quarter 2018 edition of TER

This amazing prophetic view of the future contains an easy-to-understand timeline of world changing events scheduled to unfold between 2017 and 2024. It is filled with Scriptures that connect current events with end time prophecy in a way that lets you clearly understand the coming global crisis and how to prepare for it. It explains how the Arab Spring, Brexit, and the election of Donald Trump has produced an era of anti-establishment politics that ultimately leads to the global upheaval described in Scripture, how the war on cash will lead to the "Mark of the Beast," and how to protect yourself from the collapse of the \$1.5 quadrillion global debt bubble. Prophetic Word August 7, 2010

"All order is about to be lost; financial order, civil and political order, family order, and religious order. Society is about to be thrown into financial chaos and war. So Prepare! Prepare! Prepare!

Prepare in spirit, prepare in soul and prepare in body. Prepare mentally, prepare emotionally and prepare physically, for the next great shaking is about to come upon this world's order of things. Repent and prepare your hearts for yet another shaking is about to remove more of what can be shaken, so that more of what cannot be shaken may remain. So Return! Return! Return!

Return to Me" says the Lord, "with all your heart and with all your soul and with all your might, and walk in My ways and not your own. Return to me and I will return to you, and I will save you and deliver you, and you will not be shaken in the troubling days ahead."
